Benchmark 4- Linking curriculum learning to careers resource guide

This resource guide has been put together to help you achieve BM4 - Linking curriculum learning to careers. It has been split into subjects and should allow you to easily share relevant information with your department heads and colleagues. The links consist of various resources and ideas to incorporate careers into the KS3 and KS4 curriculum. *(last updated Jan 21)*

Tips:

- Have career posters visible in every department (see Additional Resources for free examples)
- Have a careers champion in each department - find out what is already being done and write that into your programme. Discuss with them, things that could work.
- Do an audit in each department to identify existing good practise and potential gaps -

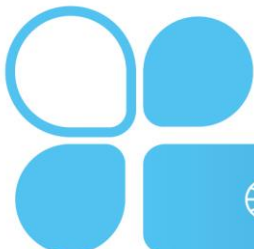

Example template:

<https://www.careersandenterprise.co.uk/sites/default/files/uploaded/cross-subject-areas-audit-ceiag-enterprise-and-employability-1bc.docx>

School Example:

<https://www.tighs.com/wp-content/uploads/2019/04/Gatsby-Benchmark-4-Careers-Provision-2018-19-overview.pdf>

- Have door signs on each classroom which show teachers previous jobs and skills gained. This may prompt teachers to talk about previous and dream jobs.
- Teachers highlight careers related learning e.g. by using Careers logo on powerpoints/ sticker on board.
- Connect with alumni/ employers - this can be done virtually or use pre recorded videos on line.
- Use an LMI tool such as <https://www.careerpilot.org.uk/information/careerometer>
- Use career based starter activities e.g Play your Careers Right game/ Careers crosswords for each department from ntlearningtrust.org.uk/members-area/
