Welcome

Welcome to the first edition of the North Tyneside Learning Trust 15 Minute Careers Challenge resource pack for first and primary schools.

These activities have been designed to be used:

- In your classroom as 15 minute starter tasks
- As part of a structured lesson
- For remote learning.

All resources can be downloaded from the new members area of our website www.ntlearningtrust.org.uk and provided to children in individual work packs or as part of an online class activity.

All the resources have career education themes but also encourage children to use their numeracy and literacy skills.

We would love to hear feedback from teachers and children about the resources. Please send your comments and any images of you using the resources to julie.scott@ntlearningtrust.org.uk or share with us on Twitter using @ntlearningtrust with #WOWcareers.

If you have any resources about careers you have used with children in your school and would like to share with other Trust schools in future editions please contact us with your ideas.

The World of Work project aims to transform careers education from pre school to post 16 in all Trust partner schools by offering employer enriched careers interventions which motivate, inspire and equip children and young people to reach their full potential.

Every child—no excuses.
